### Description

Richardson International Limited is Canada's largest privately owned agribusiness, with offices and operational facilities in six Canadian provinces. Through its core activities in grain handling and merchandising, crop inputs sales and services and canola processing, Richardson is proud to link farm production to domestic and world markets.

Our operations are growing and we are looking for a talented individual to join our team at our Crooked River facility located in Tisdale, SK.

Sales Agronomists are responsible for contributing to increased sales volumes and overall business unit and corporate profitability by way of marketing products and services to farm and other retail customers throughout a specified trading area and must regularly provide accurate and label directed agronomic and crop production information to customers.

The ideal candidate will have a Degree in Agriculture and/or a minimum of 3 - 5 years of agronomy and crop inputs sales experience, excellent communication, interpersonal and organizational skills with a working knowledge of Microsoft Applications. The Certified Crop Advisor
