Tim's Tip of the Day

Though all suspect that cell phones, particularly so-called smart phones are changing the world. It has already happened and the power of these devices is far more reaching than just teenagers sending notes to one another. 3G has put power into the hands of everyone with a device. Find of the Day

Japan monster quake rattled upper atmosphere: Scientists

That massive magnitude 9 earthquake that damaged the Japanese coast in March disrupted the atmosphere up to 200 miles above the earth's surface. It was a surprise to

scientists that the affects of the Tsunami were detectable in the ionosphere.
